EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Brion St. Amour on 03/10/06.

The application has been amended as follows:

Claims 54-65 and 71-78 have been cancelled.

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose a patient support having a load cell configured to receive a force from a user and provide a force signal to a controller to command a motor of a motorized wheel based on the signal received through the load cell by a user. The load cell is not a force-sensing resistor (the NPL document to IWSA Laboratories explains this) since it is used for more precise applications.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Matt Luby whose telephone number is (571) 272-6648. The examiner can normally be reached on Monday-Friday, 9:30 a.m. to 6:00 p.m..
